Jonathan White, MD	Associate Professor, Neurological Surgery and Radiology
Mark Johnson, MD	Associate Professor of Neurology
Jessica Lee, MD	Assistant Professor of Neurology
Christopher Madden, MD	Associate Professor, Neurological Surgery
Lee Pride, MD	Associate Professor of Radiology and Neurological Surgery
Christiana Hall, MD	Assistant Professor, Neurology and Neurological Surgery
Robin Novakovic, MD	Assistant Professor, Neurology and Radiology
Kim Rickert, MD	Instructor, Department of Neurological Surgery and Radiology
Worthy R. Warnack, M.D.	Associate Professor of Neurology
Babu Welch, MD	Assistant Professor, Neurological Surgery and Radiology
Wengui Yu, MD, PhD	Assistant Professor, Neurological Surgery and Neurology

Target audience: Paramedics, EMTs, and other health care professionals involved in the acute evaluation, resuscitation and transportation of patients with acute stroke and other cerebrovascular diseases.

Purpose: To educate emergent care givers in new concepts and techniques related to the management of acute stroke and cerebrovascular disaster.

Learning objectives: At the conclusion of this symposium, participants will be able to:

- 1). appreciate the symptoms and signs of acute stroke and cerebrovascular disaster
- 2). understand state-of-art emergent care and transportation of stroke patient
- 3). know endovascular and surgical options in the management of cerebrovascular diseases.

Continuing education credit: CEUs will be awarded through UTSW Dept of Emergency Medicine Education and the State of Texas to Paramedics and EMTs

Parking: free on-site parking.

Registration: By Friday, July 16, 2010 call Vicki Rankin at 214-648-8513, or E-mail: Vicki.rankin@utsouthwestern.edu
